

European - Southeast-Asian Experts "One Health in Action" workshop: From One Health Theory to Reality: Practical challenges, impacts of One Health initiatives and gaps in research"

Hanoi, Vietnam, 13-15 October 2014

WORKSHOP OBJECTIVES

Marisa Peyre, CIRAD

Who are we?

- 100 experts
- 71 SEA and 29 EU/Int
 - 41 Animal Health
 - 49 Public Health
 - 7 Environment/Wildlife Health

Why are we here?

- To share information on proof of concept, the impact/added value of One Health implementation in the field
- To identify practical challenges linked to implementation of One Health concept
- To Identify gaps and needs for One Health research and discuss about new topics
 - ⇒ One Health surveillance
 - ⇒ One Health/EcoHealth research at the wildlife/domestic animals/humans interface
 - ⇒ Antimicrobial resistance: a One Health challenge

Why are we here?

• To promote exchanges between EU and ASEAN experts, national institutes, international institutes, funding agencies on One Health research

 To provide technical and partnership elements for the development of project proposals and H2020 Topics

Expected Outputs

- Elaboration of justified "One Health research topics" to be submitted to the European Commission for future H2020 calls and relevant for international Cooperation with SEA
- A policy note supporting the OH approach and needs of research (a workshop report of 6 -7 pages)
- Teaming up and building of consortia to submit bids to H2020 calls

How? To build together...

Brainstorming sessions

- To identify most importance gaps and needs for OH research
- To develop research topics
- To prioritise the topics
- To justify their importance

Next step

To submit the 3 most important topics to EU H2020 program

PARTNERS

- •SEA-EU-NET 2 project under the European Union
- •National Institute of Hygiene and Epidemiology, Vietnam (*NIHE*)

National Institute of Veternary Research, Vietnam (NIVR)

•Centre de coopération internationale en recherche agronomique pour le développement (CIRAD)

British High Commission of Singapore

The International Livestock Research Institute (ILRI)

An also

- French Embassy
- CEVA Santé Animale
