

REVASIA Research Program 2nd Workshop, 16th June 2015

Innovative methods to evaluate animal health
surveillance systems in South East Asia

Moving from Research to Policy Decision

Université
de Liège

Who are we?

- 32 Participants

- MARD
- NIVR
- VNUA
- NIAS
- NIHE

- HSPH
- DAH
- NCVD
- DLP
- RUDEC

- Apologies

- PAHI
- FAO
- ILRI
- OUCRU

- New comer

- CIAT

Why are we here?

- **Follow up of 1st workshop (15th April 2015) (see report provided)**
- **To work on transfer of research to policy**
- To learn on impact pathway evaluation
- To review impact/need for improvement of animal health surveillance in Vietnam

How? To learn about impact evaluation

- Plenary presentations

Time	Topic
8h30-9h00	Welcoming and registration
8h30-8h40	Workshop Introduction <i>Assc. Prof. Nguyen Viet Khong, Deputy director of Vietnam National Institute of Veterinary Research</i>
8h40-9h00	HPAI Surveillance in Vietnam: current situation <i>Ms. Nguyen Thi Diep, Department of Animal Health of Vietnam</i>
9h00-9h20	The evolution of surveillance in Vietnam and REVASIA Research Program innovations/contributions <i>Dr. Marisa Peyre- Cirad</i>
9h20-9h40	How to evaluate the impact of research to improve of animal health surveillance programs in Vietnam <i>Ms. Stéphanie Cong, Cirad-ISTOM</i>
10h30-10h50	Coffee break

How? To work on impact pathway to improve animal health surveillance

- Workin group discussion

10h30-10h50	Coffee break
10h30-12h00	Working Group activity/discussions: building up an impact pathway “How to improve animal health surveillance in Vietnam?”. Each group will work on one scenario: <ul style="list-style-type: none">- Institutional changes- Advise to politics by research- Changes at local level, links between public/private stakeholders
12h00-12h15	Brief presentation of the working group results
12h15-12h30	Conclusion and recommendations <i>Assc. Prof. Nguyen Viet Khong, Deputy director of Vietnam National Institute of Veterinary Research and Dr. Philippe Girard-Regional representative Cirad</i>
12h30-14h00	Lunch at NIVR
